Goods and Services

Goods or services

- (a) goods produced by a public sector entity for sale (for example, municipal water provided for a fee);
- (b) services provided, including those that involve another party (for example, routes operated by a contracted service provider for public transit commuters for a fee);
- (c) standing ready to provide goods or services (for example, paramedics on site at an athletic competition organized by a community group);
- (d) an asset constructed, manufactured or developed for a payer (for example, connecting a private dwelling to the municipal water system);
- (e) rights provided to use intangible assets owned or controlled by the City (for example, an agreement to use a public facility for a community centre);
- (f) a decision provided and having the appropriate documentation ready (for example, issuing a driver's licence to a qualified driver);
